

1. Introduction: We invite proposals from experienced occupational therapy service providers to deliver comprehensive occupational therapy services tailored to students enrolled in special education programs in grades kindergarten through fifth grade. The selected provider will collaborate closely with our organization to enhance the functional abilities and academic success of our students.

2. Background: Hunters Point Boarding School Inc. is located on the Navajo reservation in Saint Michaels, Arizona. Hunters Point Boarding School Inc. (HPBS) is a tribally controlled grant school under Public Law 100-297. It is in Apache County, approximately five miles from Window Rock, Arizona in the heart of Navajo Nation. In 1962, the Bureau of Indian Affairs constructed the current facilities. This included an academic building and a residential building. The current facilities were completed in 1962. The school began as a Bureau of Indian Education operated boarding school. In 2010, Hunters Point Boarding School, converted to a grant school, under the statutes of Public Law 100-297. For over 74 years HPBSI has played a key role in serving the educational needs of several communities: Hough, Fort Defiance, Oak Springs, Red Lake, Sawmill, and Lupton. A four-member elected school board representing the communities governs the school. HPBSI transports its students from a geographical area, which spans 30 miles and many of the roads are unpaved roads. During the winter and rainy season transporting students to and from school becomes a greater challenge; impassable road conditions often prevent students from attending school. Therefore, providing a residential program is vital to ensuring children attend consistently. HPBSI operates on a school-wide Title I program and follows all federal, state, and tribal requirements. The school is a Kindergarten through fifth grade boarding school with an average enrollment of 150 students. We have a highly qualified teacher in every classroom. There is one teacher per grade level. In SY 2016-2017 the school was awarded the Dual Language Immersion Grant. In 2017-2018 HPBSI implemented the first year of the immersion program in kindergarten and first grade. The grant is written to add a grade each year. This year we have added third grade in addition to the existing grade.

3. Objectives: The primary objectives of this RFP are to:

- Identify an occupational therapy service provider with expertise in assessing and treating the functional needs of children with diverse abilities.
- Improve the functional skills and independence of special education students, thereby supporting their academic achievement and overall well-being.

- Ensure that occupational therapy services are delivered in a culturally sensitive manner, with a focus on meeting the unique needs of students in tribal communities.

4. Scope of Work: The selected provider will be responsible for:

- Conducting comprehensive assessments to identify the functional strengths and challenges of students enrolled in grades kindergarten through fifth grade.
- Developing individualized therapy plans tailored to the specific needs and goals of each student, in collaboration with their teachers and parents/guardians, e.g.: IEP's.
- Providing evidence-based occupational therapy interventions to address a wide range of functional difficulties, including fine motor skills, gross motor skills, sensory processing, self-care skills, and activities of daily living that are specified in each student's individualized education plan.
- Delivering therapy services in various settings, including individual sessions, group sessions, and classroom-based interventions, as appropriate.
- Review and analyze current evaluation reports.
- Provide screening and evaluation for prospective and current students.
- Monitoring student progress and adjusting therapy plans as necessary, in consultation with the student's educational team; submit evaluation reports with results and findings from screening and assessments.
- Review student medical and educational records.
- Collaborating with teachers, special education staff, parents/guardians, and other relevant stakeholders to ensure coordinated support for students with functional challenges.
- Attend IEP/MET meetings to discuss assessment results and recommendations based on the findings.
- Provide referrals to other agencies if needed.
- Assist with Child Find activities two times per school year.
- Assist and provide recommendations with assistive technology.
- Consult with teachers and parents on a bi-weekly basis.
- Provide and submit service logs to keep in compliance with agency audits.
- Provide quarterly progress reports.
- Use and access NASIS to input IEP goals, assessment reports, and progress reports.
- Maintaining accurate and up-to-date records of assessments, treatment plans, progress notes, and other relevant documentation, in compliance with applicable regulations and best practices, including 25 CFR 63, Part B of the Individuals with

Disabilities Education Act (IDEA), and provisions for Tribally controlled schools and Indian Self Determination and Education Assistant.

- There may be other services that may be assigned by the Sped Coordinator or at the parent request.

5. Deliverables:

- Comprehensive occupational therapy assessments for each student referred for services.
- Individualized therapy plans outlining specific goals, objectives, and intervention strategies for each student.
- Regular progress reports documenting student progress and outcomes, to be shared with parents/guardians and educational team members.
- Timely communication and collaboration with our organization and other involved parties.
- Any additional deliverables as mutually agreed upon between the provider and our organization.

6. Proposal Submission Guidelines: Interested providers are requested to submit a proposal that includes the following:

- Company overview, including relevant experience and qualifications in providing occupational therapy services to children in special education settings.
- Description of occupational therapy services offered and approach to student-centered care.
- Proposed methodology for assessing student needs and delivering therapy services, including considerations for individualized education plans (IEPs) and collaboration with school personnel.
- Staff qualifications, certifications, and experience working with special education students.
- References from previous clients or partners, particularly those in the education sector.
- Proposed timeline for service delivery, including availability for on-site sessions during school hours.
- Budget, including detailed cost breakdown and payment terms.

7. Evaluation Criteria: Proposals will be evaluated based on the following criteria:

- Demonstrated expertise and experience in providing occupational therapy services to children in special education settings.

- Ability to meet the specific needs and requirements of our organization and students, including adherence to relevant educational standards and regulations.
- Quality and comprehensiveness of proposed methodology and intervention strategies, with an emphasis on evidence-based practices.
- Qualifications and experience of staff members assigned to deliver services, including cultural competence and sensitivity to diverse student populations.
- Cost-effectiveness and value for money, considering the unique budgetary constraints of educational institutions.
- References and track record of successful outcomes in improving functional skills and academic/social functioning in special education students.

8. Contact Information: For inquiries and submission of proposals, please contact: Faron Logan, Business Manager, Hunters Point Boarding School, Inc., (928) 871-4439.

9. Confidentiality: All information provided in response to this RFP will be treated as confidential and used solely for the purpose of evaluating proposals.

10. Disclaimer: This RFP does not constitute a contractual agreement or commitment on the part of our organization. We reserve the right to accept or reject any or all proposals received in response to this solicitation.

We eagerly anticipate receiving your proposals and forming a partnership with a qualified occupational therapy service provider to bolster the functional capabilities of our special education students.
